

FOR THE CITY GAZETTE.

TO THE TRUE FRIENDS OF ANDREW JACKSON.

The friends of Union will support Jackson—first, because the decided voice of the People is for him, and in performing the duty of *Electors*, they are bound to express, not their own, but the wishes of the People. But secondly, they will do so, because a wicked plan to get rid of him is now in operation. The Tories or Disunion men know that Jackson would never condescend to head a disunion faction; if, therefore the Calhoun party can get their men into the Legislature, and embroil the Southern States with the Union, and procure a separation, their man at once obtains the object of his ambition and the means of rewarding his tool. Therefore, friends of Jackson—Union and Union alone, can sustain your cause; come forward then and support the Union Ticket, and you secure the triumph of

JACKSON.
